Technology fails when you least expect it, and after the standard 12-month manufacturer warranty period ends, your equipment is exposed to costs and downtime. Capital Computers Collect & Return extended warranty provides cover for your equipment against mechanical and electrical breakdown which can save money and time! Trained and experienced engineers will attempt to resolve any problems remotely. Where this is not possible Capital Computers will make sure your equipment is repaired and returned in the shortest time possible. An electronic certificate provides easy registration. Once registered, you are given access to the Capital Computers Portal to view asset contracts, load claims and track repair status. Supporting major manufacturers of laptops and desktops. Cover starts from equipment purchase date
